3. On 20th of October, **discussions were held in N'Tillit Commune with approximately 75 local council and civil society members**, in the occasion of an integrated mission composed of several MINUSMA components. The field visit helped identify key stabilization issues in the area, in consultation with local authorities and residents. Located 120km southwest of Gao city, the Commune of N'Tillit is amongst the most unstable and violent communes in the region, and the site of daily violence jeopardizing the Peace process, including banditry, carjacks, mine attacks against MINUSMA and iNGO assets, and other human rights violations.

The social structure of the local community is unique, comprised of all major ethnic groups known to the region including Fulani, Tamasheq, Songhai and Arab. Originally a source of strength and pride in the community, this multi-ethnic dimension is now becoming a driver of frictions due to limited resources, reported the Mayor. A social cohesion plan with resilience projects is recommended. The *Sous-préfet* and *Gendarmerie* are missing and lawlessness is rampant. All things that indicate interventions in the areas of Police, Justice and Human Rights. The local Community Radio requires basic refurbishment, which would allow the transmission of quality information over a radius of 65km from N'Tillit.

The Commune has one borehole with water tower that provides 6 hours of water daily. A Trust Fund project has recently been approved for 15 boreholes in the region, among which two will be positioned in the areas where the highest inter-ethnic tensions exist in N'Tillit.

The Mayor and council members commended the visit and committed to pursue their cooperation with MINUSMA and facilitate other discussions of the sort throughout the various villages of the Commune. ▼

4. On 31st of October, the **Special Representative of the Secretary-general (SRSG) and Head of MINUSMA, Mr. Mahamat Saleh Annadif, headed to the new region of Menaka where he inaugurated 6 Quick Impact Projects** for the rehabilitation of the *Préfecture* and *Préfet's* residence, the Courthouse, the Police station, the *Garde Nationale* and the only rural radio of Menaka. The total budget for all these initiatives is over 240,000 USD. The inauguration of these key projects for the restoration of state authority was warmly welcomed by the population, the Governor of Menaka, the local Member of Parliament as well as other local leaders and civil society representatives.

5. The Gourma is a vast area in northern Mali spreading over 50,000km² from Timbuktu and Douentza to Ansongo and Bourem. This is where live the biggest elephants in the world according to Wild Foundation, an organization focused on preservation of migratory species.

Those elephants, whose number is estimated at nearly 400, managed to adapt to the difficult conditions of the desert but today, their existence is threatened by poaching. This phenomenon, which is not new to the area, have recently known a worrying progression supposedly due to the presence of terrorist groups in the region. More than 100 pachyderms were killed for ivory during the occupation of northern regions by armed groups. Consequently, official statistics show that **for the Gourma area alone, the elephants' population went from 400 specimens in 2011 down to 300 in 2015.**

3. From 14th to 17th of October, a MINUSMA joint mission headed to Diré and Niafunké where the Justice and Corrections Section inaugurated 2 Quick Impact Projects (QIPs) consisting in the rehabilitation of the prisons of both Cercles.

To deal with the political, institutional and security crisis that deeply destabilized Mali since 2012, the Malian Government and the United Nations System in Mali resorted to the Peacebuilding Fund (PBF) in order to support peacebuilding and reconciliation. The Government of Mali submitted an eligibility request to the Peacebuilding Support Office (PBSO) on 24th of February 2014 which was approved by Secretary-General of the United Nations on 2nd of April 2014.

In this context, the intervention of the PBF programme in Mali represents in its first phase 10.9 million USD, of which 10.6 have been attributed to 5 projects undertaken by UN agencies and MINUSMA. A Steering Committee oversees the whole programme and gathers the Malian Government, the civil society, international donors and the United Nations. The remaining 0.3 million USD goes to the Steering Committee Support Office.

UNICEF

The agency and its partners implement a speed school strategy for not attending and out-of-school children. Fora for inclusive community dialogue are also set up for social cohesion at school, within the family and community.

2 Support to capacity-building in conflict resilience for women and youth in Gao and Timbuktu regions
UNDP, UNIDO

This joint project accompanies national reconciliation and dialog promotion creating economic opportunities in favor of vulnerable women and at-risk youths.

3 Confidence-building through support to the Cantonment process
UNOPS

Operations strengthen mutual trust between peace agreement signatories and favor security climate appeasement. Rooting of the disarmament process in the country goes through fighters' cantonment, among other steps. UNOPS is in charge of the construction and management of camps intended for this purpose.

4 Solutions for a sustainable and peaceful reintegration of internally displaced people (IDPs) and repatriated refugees in Gao and Timbuktu regions
IOM, UNHCR

This project consists in providing IDPs and repatriated refugees access to basic social services and reinforcing peaceful cohabitation between local communities in a climate of increased trust in the peace process.

5 Programme for a better access to justice and security for women victims of SGBV in the peacebuilding process in Mali
UN Women, UNFPA, MINUSMA

Both agencies and the Mission assist SGBV victims facilitating access to justice and holistic care. The project also supports capacity-building of care services and judicial system in terms of SGBV.
