To deal with the political, institutional and security crisis that deeply destabilized Mali since 2012, the Malian Government and the United Nations System in Mali resorted to the Peacebuilding Fund (PBF) in order to support peacebuilding and reconciliation. The Government of Mali submitted an eligibility request to the Peacebuilding Support Office (PBSO) on 24th of February 2014 which was approved by Secretary-General of the United Nations on 2nd of April 2014.

In this context, the intervention of the PBF programme in Mali represents in its first phase 10.9 million USD, of which 10.6 have been attributed to 5 projects undertaken by UN agencies and MINUSMA. A Steering Committee oversees the whole programme and gathers the Malian Government, the civil society, international donors and the United Nations. The remaining 0.3 million USD goes to the Steering Committee Support Office.

UNICEF

The agency and its partners implement a speed school strategy for not attending and out-of-school children. Fora for inclusive community dialogue are also set up for social cohesion at school, within the family and community.

2 Support to capacity-building in conflict resilience for women and youth in Gao and Timbuktu regions
UNDP, UNIDO

This joint project accompanies national reconciliation and dialog promotion creating economic opportunities in favor of vulnerable women and at-risk youths.

3 Confidence-building through support to the Cantonment process
UNOPS

Operations strengthen mutual trust between peace agreement signatories and favor security climate appeasement. Rooting of the disarmament process in the country goes through fighters' cantonment, among other steps. UNOPS is in charge of the construction and management of camps intended for this purpose.

4 Solutions for a sustainable and peaceful reintegration of internally displaced people (IDPs) and repatriated refugees in Gao and Timbuktu regions
IOM, UNHCR

This project consists in providing IDPs and repatriated refugees access to basic social services and reinforcing peaceful cohabitation between local communities in a climate of increased trust in the peace process.

5 Programme for a better access to justice and security for women victims of SGBV in the peacebuilding process in Mali
UN Women, UNFPA, MINUSMA

Both agencies and the Mission assist SGBV victims facilitating access to justice and holistic care. The project also supports capacity-building of care services and judicial system in terms of SGBV.
